

Installing a flood stop valve

STEP 1

Turn off the tap connected to the dishwasher or washing machine.

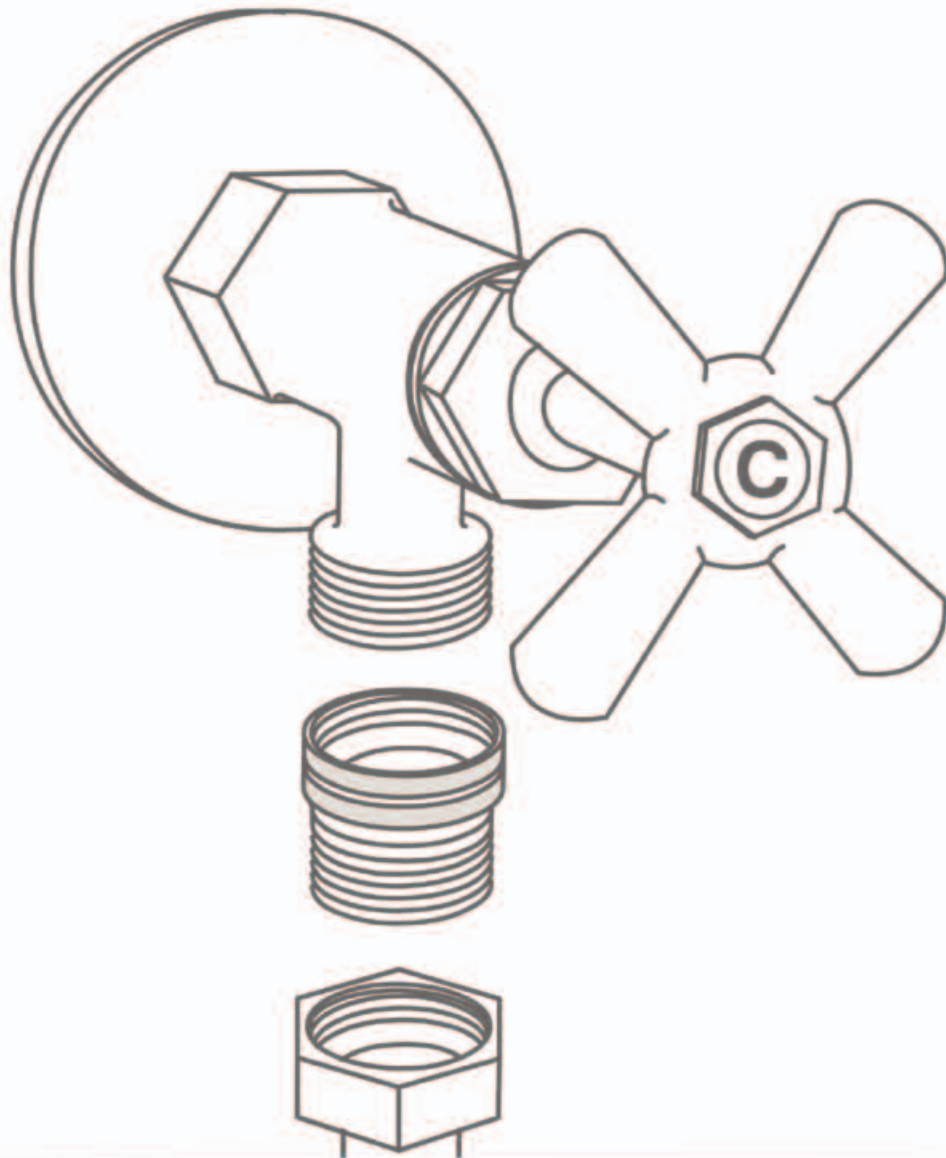

Installing a flood stop valve

STEP 2

Unscrew the connecting hose nut
anti-clockwise.

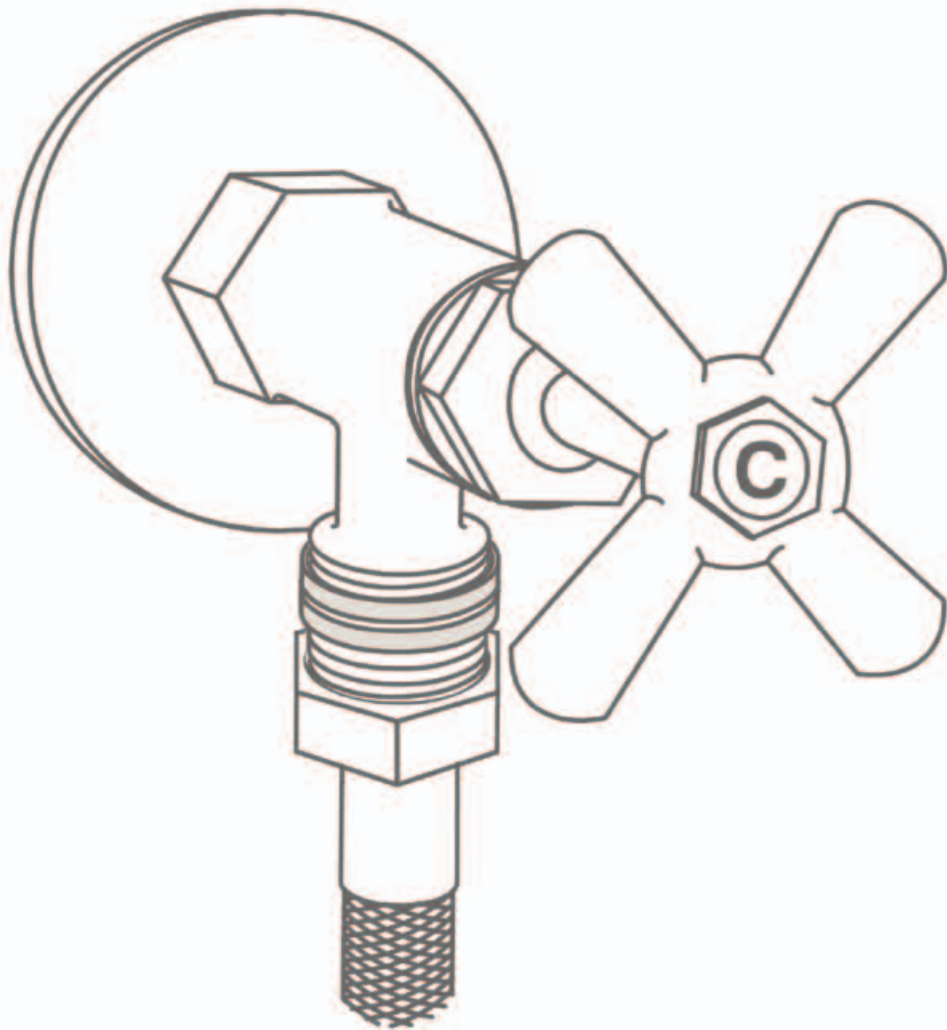

Installing a flood stop valve

STEP 3

Fit the Flood Stop Valve to the tap outlet and tighten against the o-ring seal.

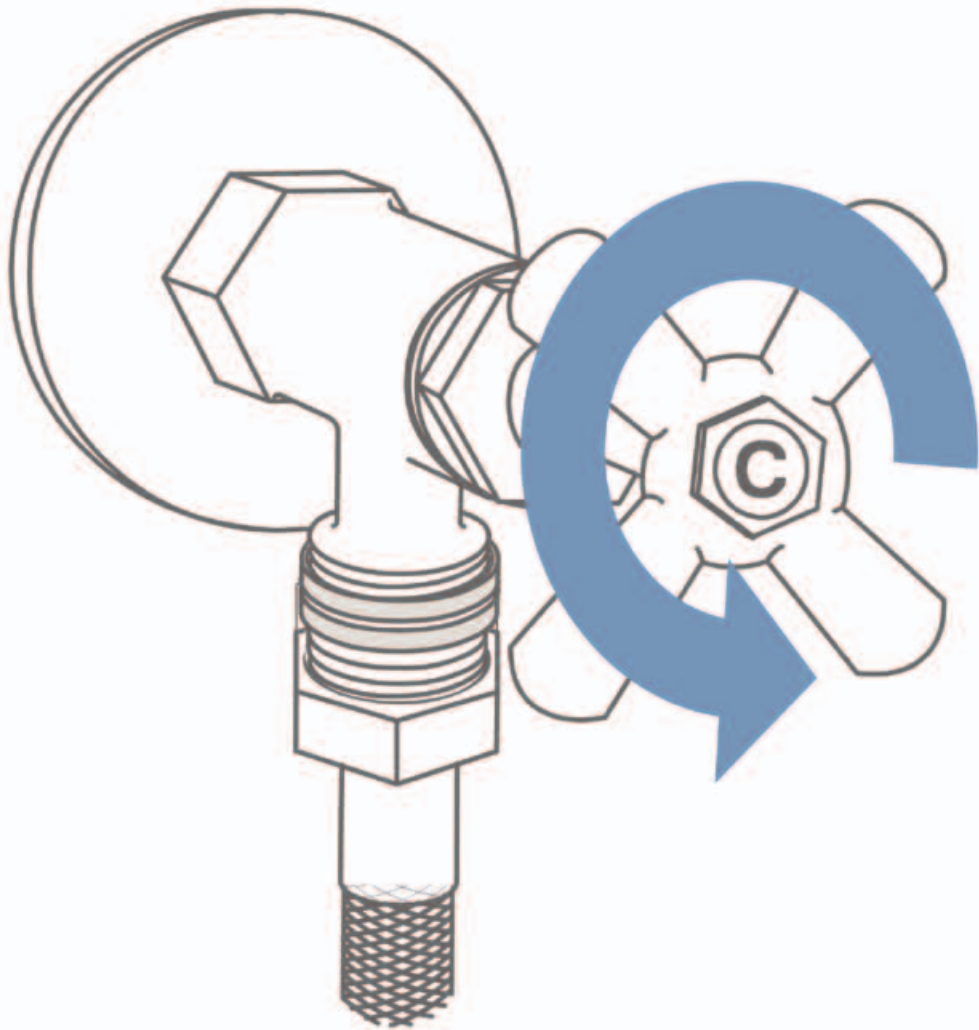

Installing a flood stop valve

STEP 4

Screw the connecting hose back onto the Flood Stop Valve.

Installing a flood stop valve

STEP 5

Turn the tap on slowly and check for leaks. Tighten if necessary. Do not over tighten as damage may occur.
